OUR PHILOSOPHY

We believe that the experiences children have in their early years lay the groundwork for lifelong learning and success.
Each day, children are encouraged to explore their interests, develop independence, and build important social, emotional, and problem-solving skills through hands-on activities and supportive guidance from caring educators. At the Y, children learn to cooperate, try new things, and express their unique selves, helping them grow into confident individuals today and active, caring members of their community in the future. We believe the values and skills children learn early in life are the foundation for future success. Our day care program provides a safe, supportive, and engaging environment where children can learn, play, build friendships, and grow with confidence.
